

QUALITY BY DESIGN

MBAV – Maritime Body Armor Vest

The MBAV is made from a combination of lightweight and durable hydrophobic materials that will hold minimal water, drain and dry quickly. The toll coated rubber materials are hydrophobic, anti-microbial, low IR and flame resistant (FR). The mesh fabrics and woven fabrics are water repellent treated. The design allows water to drain quickly, and the thread is coated to be water repellent. The toll-coated fabrics are similar to the Hypalon fabrics used in Zodiac boat design and manufacturing.

Features:

- Made from light-weight, abrasion and water resistant hydrophobic materials
- Can be configured for release or non release based on user preference
- Removable Front Flap allows multiple configuration options
- Laser cut MOLLE for attaching pouches or accessories
- Integrated Floatation
- Skeletal cummerbunds
- Integrated side armor / Floatation Sleeve
- Detachable shoulder pads
- Integrated drag handle
- Velcro® panel on upper Front and Back for IR/ID patches
- Fits SPEAR/BALCS, SAPI and ESAPI Front/Rear plates (sizes S-XL)

Product #: PCM-MBAV/2004-Size-Color

Sizes: S, M, L, XL

Colors: Multicam® (5CCA), Coyote Brown (5SCOY), Black (5BK)
